KEY TECHNOLOGIES

CORE TECHNOLOGIES

FW20 DESIGN INSPIRATIONS

The FW20 Performance collection pays tribute to our deep heritage of **innovation** and racing legacy. Innovation is the foundation of our research and design process.

Inspired by urban techwear, our garment construction is refined and pure: every line has a specific meaning. Between a **new auto-repair fabric**, a **protective underwear** and **preformed sleeves** with a helical structure, skiwear has never been so anatomical and liberating.

Our design signature is tied to our century old **ski heritage**: the **two parallel stripes** inspire our styles, patterns, garment composition and architecture. They symbolize the skis, the two tracks on the ski slopes and are an emblematic reference to our deep universe. **The V-shape** as well is part of our design language. Symbol of victory and a close reference to sports.

ANOTHER BEST DAY

MORE THAN A CODE, THE **GREEN LIGHT** WHICH SHINES AS SOON AS A SKIER GETS THE **RACE FIRST PLACE**, MARKS OUT THE PERFORMANCE WAY. WHEN IT ENLIGHTENS THE FINISH AREA, IT REVEALS THE **ULTIMATE REWARD**.

HERO DEPART
JACKET

HERO EXCES
ANORAK

The Hero capsule stands out thanks to the best technologies and materials but above all thanks to an unique and high-end design: touches of neon green, Hero prints and neon red stripes, directly inspired by racing and by the Hero ski, give a premium and high-tech look. Specific codes only understandable by ski racing lovers.

~~FREERIDE~~ RIDE FREE

FUN. EXPRESSION. CREATIVITY. STYLE.

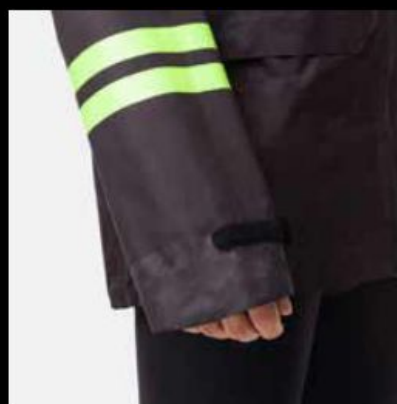

THE RIDE FREE COLLECTION IS DESIGNED FOR ALL GENDERS, MIXING MOUNTAIN AND URBAN EXPERIENCES. ONE MOTTO: LET OUR IMAGINATION RUN FREE AND OUR CREATIVITY GO WILD. FIND THE TRUE ESSENCE OF FREERIDE.

ON THE MOUNTAIN AND OFF THE MOUNTAIN.

From anoraks to shell jackets, the RIDE FREE designs are progressive and bold. Stone graphics inspired by nature and stemming from a constant quest for aesthetics and a sense of adventure. We chose modern colours: raw clay contrasting with neon yellow, powder pink raised by coral details.

**A NEW ENERGY, A NEW ATTITUDE, A NEW CULTURE.
WE DON'T JUST FREERIDE. WE RIDE TO CREATE AND SHARE.
WE RIDE FREE.**

Our key product: the ATELIER S RF JACKET, our 3-layer, seamless and Made in France jacket, is the benchmark in freeride jackets.

Made at the foot of the French Alps, it features the eco-friendly, recyclable and ultra-stretch Sympatex® membrane which guarantees the highest levels of waterproofness (>20,000 mm Schmerber) and breathability (>20,000 g/m²/24h). Perfect for enjoying a day in the snow. ATELIER S: SOUL, SCIENCE, SYMPATEX®, SEAMFREE, STYLE. A first step to protect our playground.

SPORT CHIC COLORS INSPIRATIONS

The blue, white and red, the three emblematic colors of Rossignol, inspired by the French flag, are the leading colors of the Sport Chic collection. To stay true to our heritage, we use also on our products' lining & details the royal blue originally seen on the base of the world-renowned Rossignol Strato ski.

- CORE COLOURS -

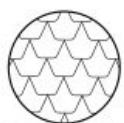

blue, white, red, royal blue

- SEASONAL COLOURS -

clay, fluo yellow, neon red, baby blue, pink fushia, bordeaux

SPORT CHIC TECHNOLOGIES

COVERSHIELD

COVERSHIELD

A new down jacket construction method. The down compartments imbricate and articulate in order to cover the seams with fabric. Improves greatly the waterproofness of puffy jacket.

KNITTED TECHNOLOGY

A new revolutionnary, seamless, ultra stretch and flexible stitching method with 3D lamination. Fully knitted, it improves the freedom of movement, comfort and breathability.

WATERPROOFNESS

Thanks to our 10 000 / 20 000 mm waterproof membrane and a DWR coating which creates a water repellent shield, the jackets, down jackets and pants of Sport Chic collection keep skiers dry whatever the weather conditions.

STRETCHABILITY

Depending on the elastane composition, our 2-way or 4-way stretch membrane can adapt to every movement constraints.

INSULATION

PRIMALOFT®

First alternative to down, the synthetic insulation Primaloft® shows surprising functionalities in wet and cold environments. Its water-repellent treatment can keep the skier warm even wet. Packable, the padding is very compact and flexible.

3M™ THINSULATE™ FEATHERLESS 700 INSULATION

Featherless Insulation (Type FL700) is an alternative to natural down designed to mimic its warmth and performance of an equal quality of 700 «fill power».

- As lightweight as natural down
- Performs when wet
- Extreme warmth
- Provides versatile design capabilities
- Highly compressible

DUVET DU FAUBOURG®

Jackets insulated with Du Faubourg down 90/10 750 fill power are perfectly adapted to every weather condition and allows its user to stay dry and warm. This specific French down brings a lighter, natural heat sensation that is also very comfortable and extremely packable.

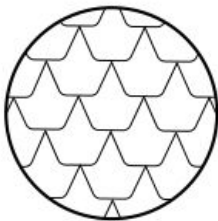

ANOTHER BEST DAY

COVERSHIELD

As an elegant alloy of subtly vintage Sport Chic spirit, ultra-innovative construction and bio-mimetics, the Covershield concept is a technical and avant-garde construction method of ski down jackets.

It revolutionizes the ski down jacket and sets new codes for the development of **highly watertight down jackets**.

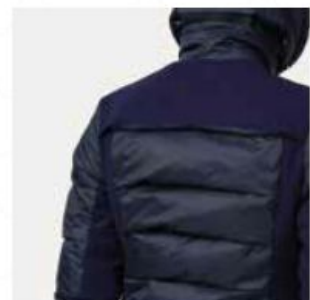

Inspired by the armadillo and its dorsal armor made of **overlapping scales**, the down compartments imbricate and articulate in order to cover the seams with fabric. Thanks to a simple but **ingenious mechanical effect**, water can slide off the surface without reaching the seams, the least waterproof jacket's parts.

COVERSHIELD

NATURE & ARCHITECTURE INSPIRATION
INGENIOUS MECHANICAL EFFECT
OVERLAPPING SCALES

THE REVOLUTION OF DOWN JACKET

Thanks to this unique construction, it is useless to make the seams watertight with thermoglued stripes.

The jacket increases its ergonomics and lightness.

A new construction concept we applied to every collection, **from skiwear to urban fashion.**

The revised version of our iconic Palmares jacket.

Redefining the concepts of elegance and tech, the Palmares Flyknit jacket features our innovative construction MEMBRANIS—ultra-soft, stretchy, and seamless fabric with 3D lamination—. It combines a waterproof (20,000 mm), breathable (20,000 g/m²/24h) membrane with Pimaloft® Silver insulation for an optimal weight/heat ratio.

Our resolutely Sport Chic ski jacket with a BLU, BLANC, COOL spirit.

The W EMBLEME DENIM JKT is a sporty, stylish women's ski jacket. It combines a waterproof (10,000 mm), breathable (10,000 gm/24h) stretch membrane with Primaloft® Silver insulation. The denim parts bring elegance and style. Featuring the brand's famous 'blue, white and red' French flag-inspired signature, it is the epitome of French chic.

DARKNAVY75

Rossignol Apparel and the fashion designer Jean-Charles de Castelbajac have been working together for over a decade, creating technical garments with originality and elegance in unique designs.

For the FW20 season, the new collection HIJACK THE BLACK is stunning and creative. Jean-Charles de Castelbajac plays with the power of the black darkness to enhance its favourite primary colours. Bringing joy and hope in winter, the colourful rainbow will enlighten the slopes.

Jean-Charles de Castelbajac reinvents shapes through slendered silhouettes and boxy jackets worn on high-waist and slim pants. He modernizes down by embedding e-fur, jacquard icons patterns, softshell inserts and colourful stitching prints.

A colourful and unique collection, directly taken from the Createur imagination.

CREATEUR TECHNOLOGIES

INSULATION

DUVET DU FAUBOURG®

Jackets insulated with Du Faubourg down 90/10 750 fill power are perfectly adapted to every weather condition and allows its user to stay dry and warm. This specific French down brings a lighter, natural heat sensation that is also very comfortable and extremely packable. Traceable down certified with Duntrack Down & Feathers (food industry waste, periodically audited by third party (IDFL).

WATERPROOFNESS

SYMPATEX®

The new Made in France W ECO-LOGIC 3L Jacket features the Sympatex® membrane which guarantees extreme waterproofness (>20000mm Schmerber) and breathability (>20000 mm/m3/24h). Eco-friendly, it is an 100% recyclable membrane. Stretching up to 300%, the SYMPATEX membrane is flexible and resistant.

TECHNOLOGIES

WATERPROOFNESS AND BREATHABILITY

20000/10000 MEMBRANE

The products are equipped with a 10,000 mm or 20,000 mm membrane to guarantee waterproofness. The breathability of our products, that is the capacity of a garment to evacuate humidity and moisture, varies between 10,000 gr/m²/24h and 20,000, gr/m²/24h.

DURABLE WATER REPELLENT TREATMENT

Our skiwear is coated with a DWR (Durable Water Repellent) treatment. It allows the water to drip along the clothing without entering inside.

R-DRY

For all Rossignol products made of a transfer or quick dry fabric.

37.5™ TECHNOLOGY

- Dry fast
- Regulation of the body temperature
- Natural fibers from coconut shells
- Perfect body moisture regulation
- Long resistance to washings

SYMPATEX

The Sympatex® membrane while being extremely waterproof (>45000mm Schmerber) and breathable (>45000 mm/m³/24h) is an eco-friendly membrane. Stretching up to 300%, the SYMPATEX membrane is flexible and resistant.

GORE-TEX

A waterproof, windproof and breathable membrane. An extremely thin layer of expanded polytetrafluoroethylene (ePTFE). 9 billion pores per square inch offering unique protective characteristics.

IMP'R

The IMP'R membrane is exclusive to Rossignol ski gloves : waterproof and breathable.

INSULATION

DUVET DU FAUBOURG

Jackets insulated with Du Faubourg down 90/10 750 fill power are perfectly adapted to every weather condition and allow its user to stay dry and warm. This specific French down brings a lighter, natural heat sensation that is also very comfortable and extremely packable. Traceable down certified with Duntrack Down & Feathers.

PRIMALOFT®

First alternative to down, the synthetic insulation Primaloft® shows surprising functionalities in wet and cold environments. Its water-repellent treatment can keep the skier warm even wet. Packable, the padding is very compact and flexible.

3M™ THINSULATE™

3M™ Thinsulate™ Insulation is warm yet lightweight, powerful yet thin. It helps trap and hold body heat, while allowing moisture to escape.

The extremely fine microfibers in Thinsulate™ insulation help trap air and block body radiant heat loss, making it an efficient insulator.

3M™ THINSULATE™ FEATHERLESS 700 INSULATION

Featherless Insulation (Type FL700) is an alternative to natural down designed to mimic its warmth and performance of an equal quality of 700 «fill power».

- As lightweight as natural down
- Performs when wet
- Extreme warmth
- Provides versatile design capabilities
- Highly compressible

INSULATION 160/100

Synthetic insulation. Different weights to provide adapted warmth to various needs (160 for the body and 100 for the arms).

POLYDOWN

Synthetic down. Exclusive, microfiber polyester concept used to mimic down, insulation remains highly competitive and warm.

R-WARM

For all Rossignol products made of a warm and breathable fabric. Different weights to provide adapted warmth to various needs.

FIBERFIL

Quick-drying glove insulation that stays warm even when wet.

WOOL

Wool insures warmth and comfort with its natural fibers.

PERFORMANCE IMPROVEMENT WITH EXCLUSIVE TECHNOLOGIES

COMPRESSION

Designed specifically for the most intense sports, like Nordic skiing, patented Rossignol Innovative Compression technology associates compression with dynamic gradient : different compression ratios according to the zones of the body that are most used during efforts. Certified Lycra Sport® fabrics are long lasting and super comfortable.

STRETCHABILITY

Depending on the elastane composition, our 2-way or 4-way stretch membrane can adapt to every movement constraints.

WINGLET

The new-patented Winglet Technology revolutionizes the existing **venting systems**. It features an intelligent and **canalized airflows circulation**, from the ribs to the top of the back, adjustable and activated by zips.

SEAMFREE

The audacious and innovative seamless construction reduces the weight of the garment and improves its stretchability and waterproofness. Less frictions, more lightness, better waterproofness and breathability.
